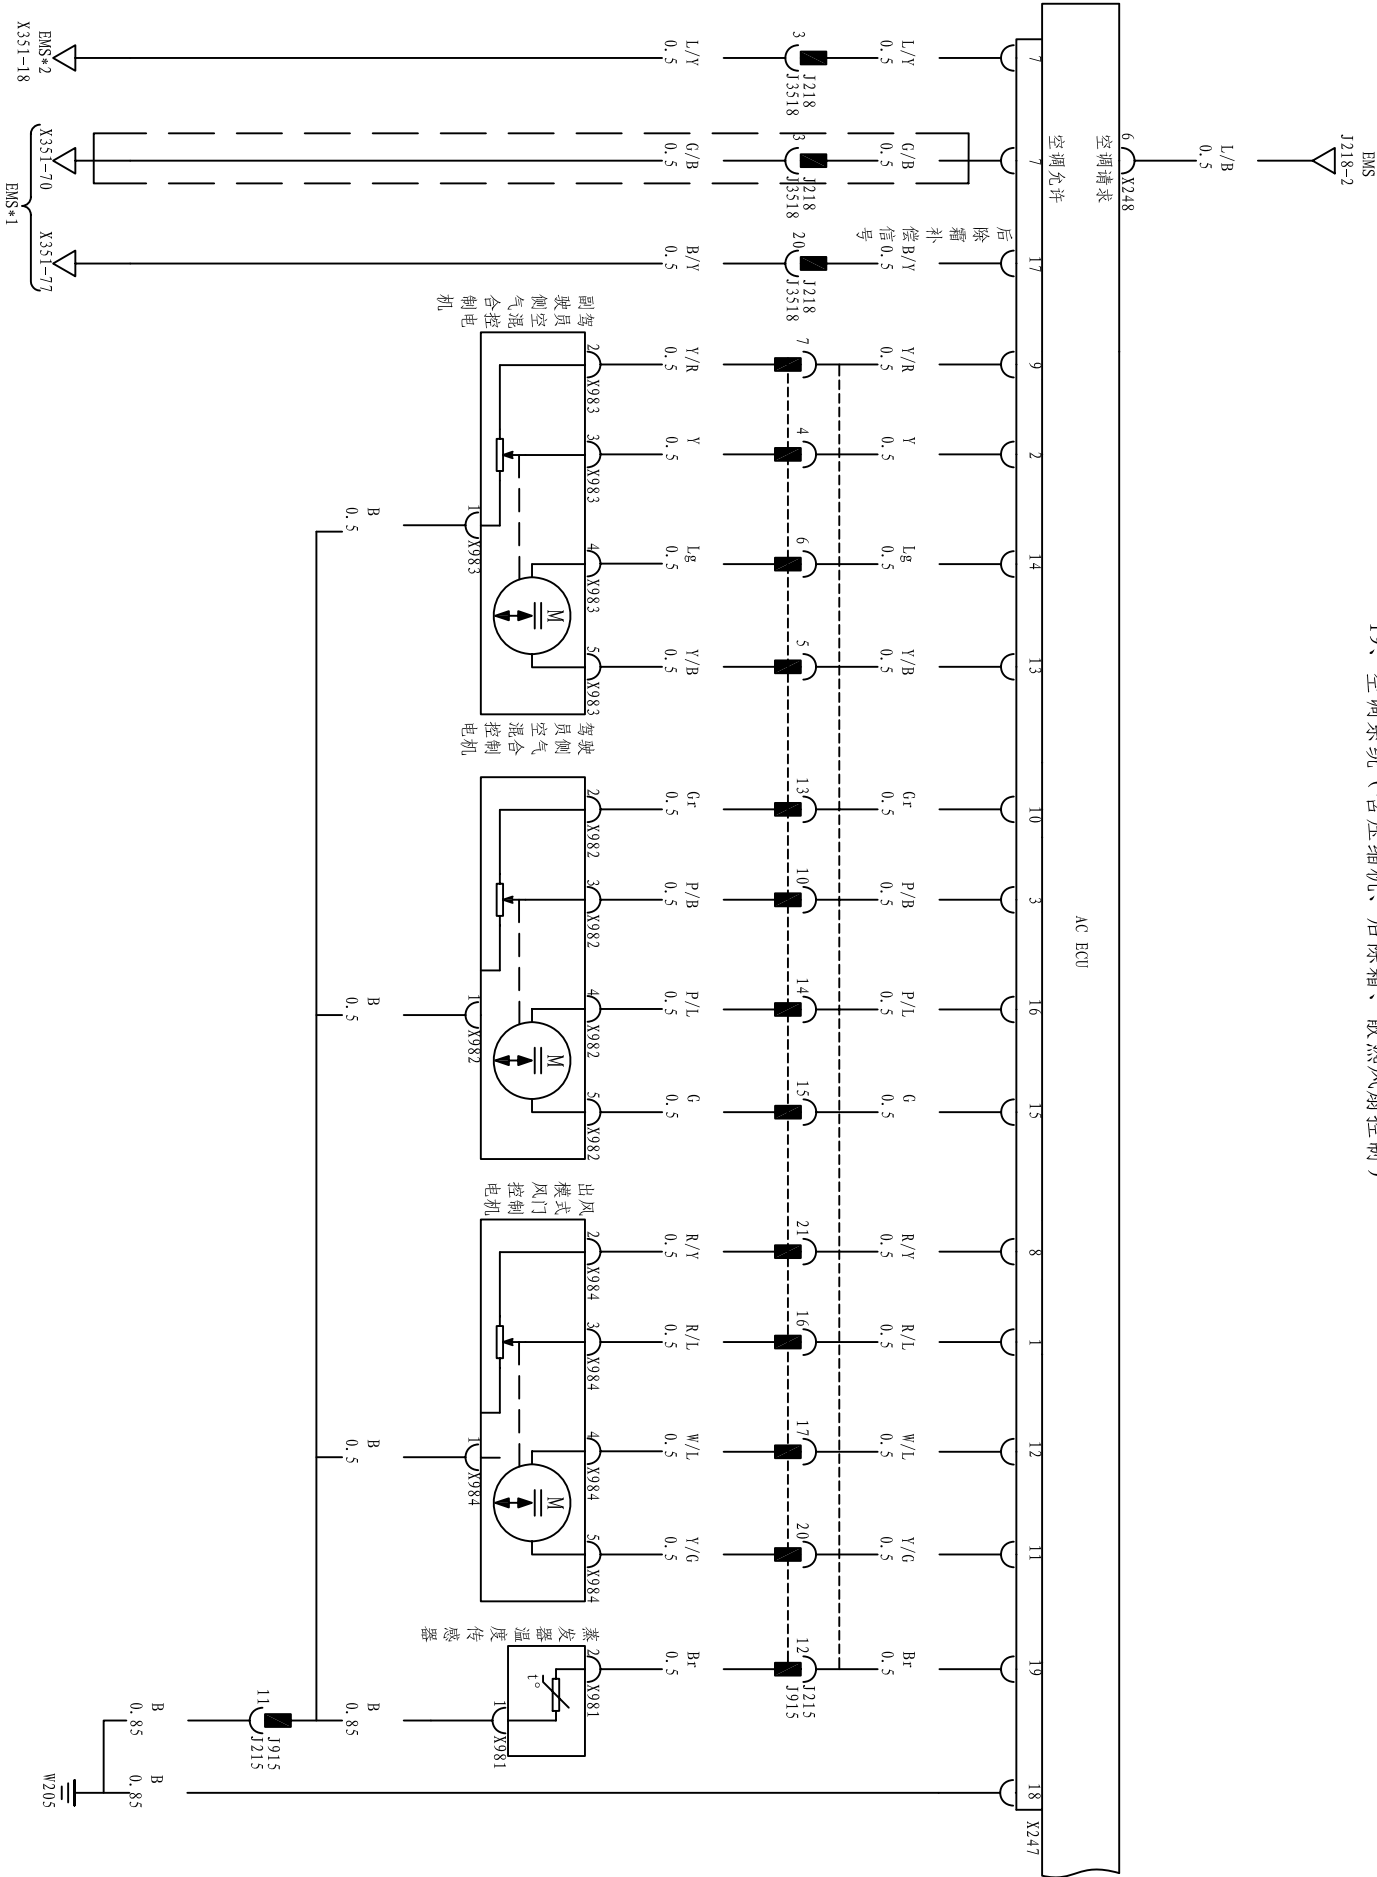

Diagram 1: Schematic diagram of the CD player's electrical connections. The diagram shows the internal wiring of the CD player, including the power supply, antenna, and various components like the antenna amplifier, antenna, and antenna cable. The diagram is divided into two main sections: the top section shows the power supply and antenna connections, and the bottom section shows the speaker and antenna connections. The top section includes the power supply (ACC), antenna (天线), antenna amplifier (天线放大器), antenna cable (天线线), and antenna (天线). The bottom section includes the speaker (扬声器), antenna (天线), antenna cable (天线线), and antenna (天线). The diagram also shows the connections for the antenna amplifier, antenna cable, and antenna. The diagram is a detailed schematic showing the internal wiring of the CD player, including the power supply, antenna, and various components like the antenna amplifier, antenna, and antenna cable.
