

锁止系统

锁止系统

The diagram illustrates the wiring for a vehicle's door lock system, showing connections between various components and modules.

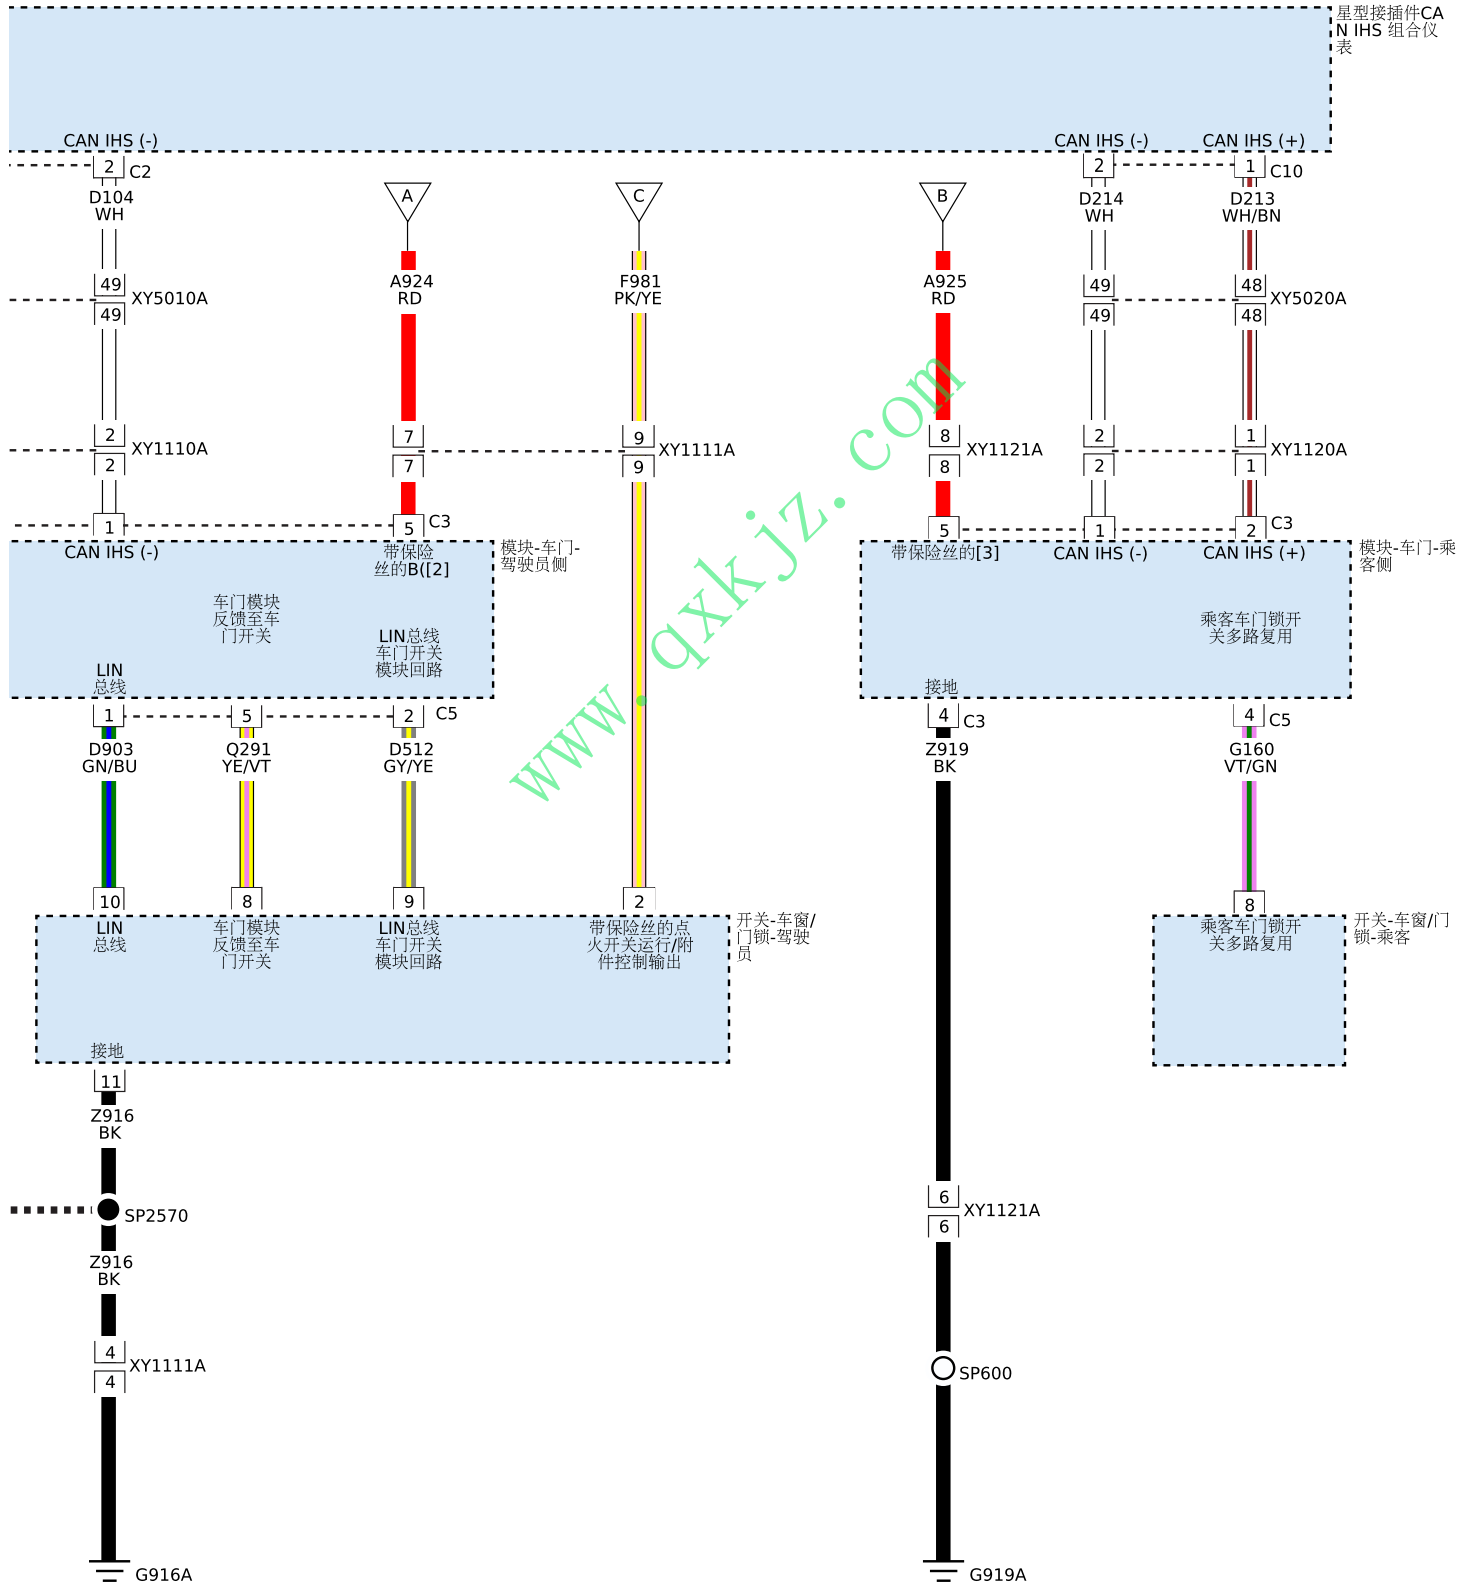

Key Components and Connections:

- Left Rear Door (左后车门):**
 - 未关开关检测 (No Close Switch Detection): Connected to CAN IHS (+) and CAN IHS (-).
 - 乘客侧门锁开关回路 (Passenger Side Door Lock Switch Circuit): Connected to CAN IHS (+) and CAN IHS (-).
 - 乘客侧车门未关开关检测 (Passenger Side Door No Close Switch Detection): Connected to CAN IHS (+) and CAN IHS (-).
- Passenger Side Door (乘客侧车门):**
 - 门锁开关回路 (Door Lock Switch Circuit): Connected to CAN IHS (+) and CAN IHS (-).
 - 乘客侧车门未关开关检测 (Passenger Side Door No Close Switch Detection): Connected to CAN IHS (+) and CAN IHS (-).
- Driver Side Door (驾驶员侧车门):**
 - 门锁开关回路 (Door Lock Switch Circuit): Connected to CAN IHS (+) and CAN IHS (-).
 - 乘客侧车门未关开关检测 (Passenger Side Door No Close Switch Detection): Connected to CAN IHS (+) and CAN IHS (-).
- Lock Pin - Door - Passenger (锁销-车门-乘客):**
 - 门锁开关回路 (Door Lock Switch Circuit): Connected to CAN IHS (+) and CAN IHS (-).
 - 乘客侧车门未关开关检测 (Passenger Side Door No Close Switch Detection): Connected to CAN IHS (+) and CAN IHS (-).

Wiring Details:

- Wires:** Various colored wires are shown, including green, orange, pink, and black.
- Pin Numbers:** Specific pin numbers are labeled for each connection, such as 1, 2, 3, 4, 5, 6, 7, 9, 10, 13, 24, 48.
- Labels:** Labels identify components like "CAN IHS (+)", "CAN IHS (-)", "接地" (Ground), "模块-车身控制" (Module - Body Control), "驾驶员侧门锁开关回路" (Driver Side Door Lock Switch Circuit), "乘客侧车门未关开关检测" (Passenger Side Door No Close Switch Detection), "乘客侧门锁开关回路" (Passenger Side Door Lock Switch Circuit), "乘客侧车门未关开关检测" (Passenger Side Door No Close Switch Detection), "锁销-车门-乘客" (Lock Pin - Door - Passenger), "左后车门未关开关检测" (Left Rear Door No Close Switch Detection), "乘客侧门锁开关回路" (Passenger Side Door Lock Switch Circuit), "乘客侧车门未关开关检测" (Passenger Side Door No Close Switch Detection), "驾驶员侧门锁开关回路" (Driver Side Door Lock Switch Circuit), "乘客侧车门未关开关检测" (Passenger Side Door No Close Switch Detection), "锁销-车门-乘客" (Lock Pin - Door - Passenger).
