**Checking the brake fluid level**

- Open the front luggage compartment and remove the flap to access the brake fluid (**A-Fig.1**).
- Unscrew the reservoir's cap (**B-Fig.1**) and check that the level is at the MAX mark.

**Note**

The level marks are on the right side of the reservoir and visible with a mirror.

- When topping up use only the prescribed fluid and introduce it with a perfectly clean dry syringe. Ensure that the fluid is uncontaminated and comes from a sealed can.

**brake fluid level type (000300)**

**Brake fluid corrodes paint: if it spills, immediately wash well with water and dry.**

**Right hand drive**

**Left hand drive**
