

## Electrical Circuit: 34 01 05: Cellular telephone (LHD) Cars fitted with a Radio/CD head unit

| No    | Description                                                         |
|-------|---------------------------------------------------------------------|
| C0003 | Luggage compartment fusebox                                         |
| C0090 | Ignition switch                                                     |
| C0188 | Aerial motor                                                        |
| C0496 | Fuse F2, 20 amp - luggage compartment fusebox                       |
| C0498 | Fuse F4, 10 amp - luggage compartment fusebox                       |
| C0501 | Fuse F7, 5 amp - luggage compartment fusebox                        |
| C0517 | Accessories relay - luggage compartment fusebox                     |
| C0519 | Cellular telephone transceiver                                      |
| C0521 | Cellular telephone microphone assembly                              |
| C0522 | Cellular telephone handset - rear arm rest                          |
| C0524 | Cellular telephone handset - centre console                         |
| C0853 | Junction box - telephone transceiver                                |
| C0870 | Telephone integration module                                        |
| G0059 | Ground point header connector 10-way                                |
| G0063 | Ground point header connector 6-way                                 |
| G0088 | Ground point connector                                              |
| S0470 | Splice - Brown/green - rear main loom                               |
| S0502 | Splice - Brown/green - left-hand drive facia loom                   |
| X1773 | Rear main loom to left-hand drive facia loom plug and socket 18-way |
| X1817 | Header connector 20-way                                             |
| X1834 | Luggage compartment fusebox connector 21-way                        |
| X1838 | Luggage compartment fusebox connector 2-way                         |
| X1841 | Luggage compartment fusebox connector 13-way                        |
| X1896 | Aerial motor connector 4-way                                        |
| X1902 | Rear main loom to telephone loom plug and socket 2-way              |
| X1903 | Rear main loom to telephone loom plug and socket 2-way              |
| X1921 | Header connector 20-way                                             |
| X1945 | Switchbox connector 26-way                                          |
| X2558 | Cellular telephone transceiver socket 25-way                        |
| X2559 | Cellular telephone transceiver aerial socket                        |
| X2560 | Cellular telephone antenna plug                                     |
| X2561 | Luggage compartment fusebox connector 9-way                         |
| X2562 | Cellular telephone microphone plug and socket                       |
| X2563 | Cellular telephone handset rear arm rest plug and socket            |
| X2564 | Cellular telephone handset centre console plug and socket           |
| X2607 | Telephone integration module connector 12-way                       |

### Circuit Links

| Description | Circuit | Additional Information |
|-------------|---------|------------------------|
| F           | 050102  | 12 V+ from the battery |

## Electrical Circuit: 34 01 07: Mobile telephone (LHD)

| No    | Description                                                         |
|-------|---------------------------------------------------------------------|
| C0003 | Luggage compartment fusebox                                         |
| C0090 | Ignition switch                                                     |
| C0501 | Fuse F7, 5 amp - luggage compartment fusebox                        |
| C0517 | Accessories relay - luggage compartment fusebox                     |
| C0870 | Telephone integration module                                        |
| C0901 | Voice activation control module                                     |
| C0902 | Mobile telephone cradle                                             |
| C0903 | Microphone                                                          |
| C0904 | Voice activation remote                                             |
| C0905 | Roof mounted aerial                                                 |
| G0060 | Ground point header connector 10-way                                |
| G0063 | Ground point header connector 6-way                                 |
| S0470 | Splice - Brown/green - rear main loom                               |
| S0502 | Splice - Brown/green - left-hand drive facia loom                   |
| S0826 | Splice - Purple/slate - rear main loom                              |
| S0827 | Splice - Purple/black - rear main loom                              |
| S0828 | Splice - Yellow/black - rear main loom                              |
| X1773 | Rear main loom to left-hand drive facia loom plug and socket 18-way |
| X1834 | Luggage compartment fusebox connector 21-way                        |
| X1838 | Luggage compartment fusebox connector 2-way                         |
| X1846 | Header connector 20-way                                             |
| X1900 | Rear main loom to left-hand drive facia loom plug and socket 14-way |
| X1921 | Header connector 20-way                                             |
| X1945 | Switchbox connector 26-way                                          |
| X2561 | Luggage compartment fusebox connector 9-way                         |
| X2607 | Telephone integration module connector 12-way                       |
| X2672 | Voice activation interface connector 18-way                         |
| X2673 | Aerial connector - telephone                                        |
| X2675 | Roof mounted aerial connector - telephone                           |
| X2676 | Microphone connector                                                |
| X2678 | Voice activation control module connector - cradle                  |
| X2680 | Voice activation control module connector - remote                  |
