

This diagram shows an exploded view of a transmission housing assembly. The main housing is a large, grey, cast metal component with a red gasket visible on its internal flange. Five numbered callouts point to specific parts: 1 points to the main housing; 2 points to a black cylindrical component; 3 points to a black flange with a central hole; 4 points to a black bracket with three mounting holes; and 5 points to a grey metal bracket with three mounting holes. Dashed lines indicate the assembly path for these components.
