**F28**

A schematic diagram of a three-pin connector. The pins are arranged vertically with pin 1 at the top, pin 2 in the middle, and pin 3 at the bottom. They are labeled with small numbers inside their respective slots.

KET\_090II\_03F\_W

**F29**

A schematic diagram of a three-pin connector, identical in pin layout to F28, with pins 1, 2, and 3 labeled from top to bottom.

AMP\_090III\_06F\_W

**M43**

A schematic diagram of a six-pin connector. The pins are arranged in two rows of three. The top row contains pins 1 and 2, and the bottom row contains pins 3, 4, 5, and 6. Pin 1 is at the top right of the top row.

KET\_090III\_06F\_W

**M44**

A schematic diagram of a six-pin connector, similar to M43 but with a different pin configuration. The top row contains pins 2 and 1, and the bottom row contains pins 6, 5, 4, and 3. Pin 1 is at the top left of the top row.
